PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with strong knowledge of Java, Spring Boot, and MySQL. Hands-on experience in building backend applications through academic and personal projects. Quick learner with strong problem-solving skills and a passion for developing scalable and efficient software solutions. Seeking an entry-level role to contribute and grow in a dynamic organization.

TECHNICAL SKILLS

Programming	Core Java, Advanced Java
Frameworks	Spring, Spring Boot, Spring Data JPA (Hibernate)
Web Technologies	HTML, CSS, JavaScript, React JS
Databases	MySQL, SQL
Tools	GitHub, Eclipse IDE, Postman, Swagger

TECHNICAL PROFICIENCY

- Proficient in Java 8 features including Lambda expressions, Stream API, and Functional Interfaces.
- Good knowledge of Exception Handling, Multi-threading, and JVM Architecture.
- Solid understanding of Object-Oriented Programming (OOP) concepts: Encapsulation, Abstraction, Inheritance, and Polymorphism.
- Experience working with Spring Framework modules, including Spring Core, Spring Boot, and Spring JDBC.
- Hands-on experience in building REST APIs using Spring Boot and JPA.
- Frontend experience with HTML, CSS, Bootstrap, and JavaScript for creating interactive web pages.

PROJECTS

Movie Ticket Booking System [Backend GitHub](#) — [Frontend GitHub](#) — [Live Demo](#)

Java, Spring Boot, React JS, MySQL

- Developed a movie ticket booking application using Spring Boot and React JS.
- Created REST APIs for movies, shows, seat booking, and users.
- Performed CRUD operations using Spring Data JPA and MySQL.
- Designed backend using Controller, Service, and Repository layers.
- Built frontend pages for movie list, seat selection, and ticket booking using React JS.
- Tested APIs using Postman and Swagger UI.

Smart Parking Management System – REST API [GitHub](#)

Java, Spring Boot, Spring Data JPA, MySQL

- Developed RESTful APIs to manage parking slots, vehicles, and reservations.
- Implemented CRUD operations using Spring Data JPA and MySQL.
- Designed layered architecture (Controller, Service, Repository) for maintainability.
- Tested and documented APIs using Swagger UI and Postman.

Medicare Smart Health Management System [GitHub](#)

Java, JSP, Servlets, JDBC, MySQL, Apache Tomcat

- Developed a web application to manage patients, doctors, and appointments.
- Implemented CRUD operations using JDBC and MySQL.
- Designed a normalized database schema for efficient data management.
- Applied MVC architecture for clean and maintainable code.
- Implemented authentication and session management for security.

Console-Based Banking Application (Java) [GitHub](#)

Java, OOP, Collections, Exception Handling

- Developed a console-based banking application using Core Java with account creation, PIN-based login, deposits, withdrawals, and fund transfers.
- Implemented OOP concepts like encapsulation, classes, and modular design for better code organization.
- Used ArrayList collections to manage account details and transaction history efficiently.
- Designed menu-driven operations using Scanner with secure PIN authentication.

EDUCATION

B.Tech in Computer Science and Engineering

2021 – 2025

Sree Vahini Institute of Technology (JNTUK) CGPA: 7.65/10

Intermediate (MPC)

2019 – 2021

AKRJ junior college CGPA:7.8/10

SSC

2018 – 2019

VSRZPH School CGPA:9.2/10

CERTIFICATIONS

- Certificate of Java Full Stack - Skill Dzure
- Certified as Design and Implementation of Human Computer Interfaces - NPTEL.

ACHIEVEMENTS

- Hackathon Runner-up – Secured 2nd place in a hackathon event at SVIST Engineering College.
- Active participant in college technical and cultural events.

DECLARATION

I here by declare that all the information provided in this resume is true and correct to the best of my knowledge and belief.

Place: Hyderabad, India
